

Tank unrolling

Top/bottom reflection

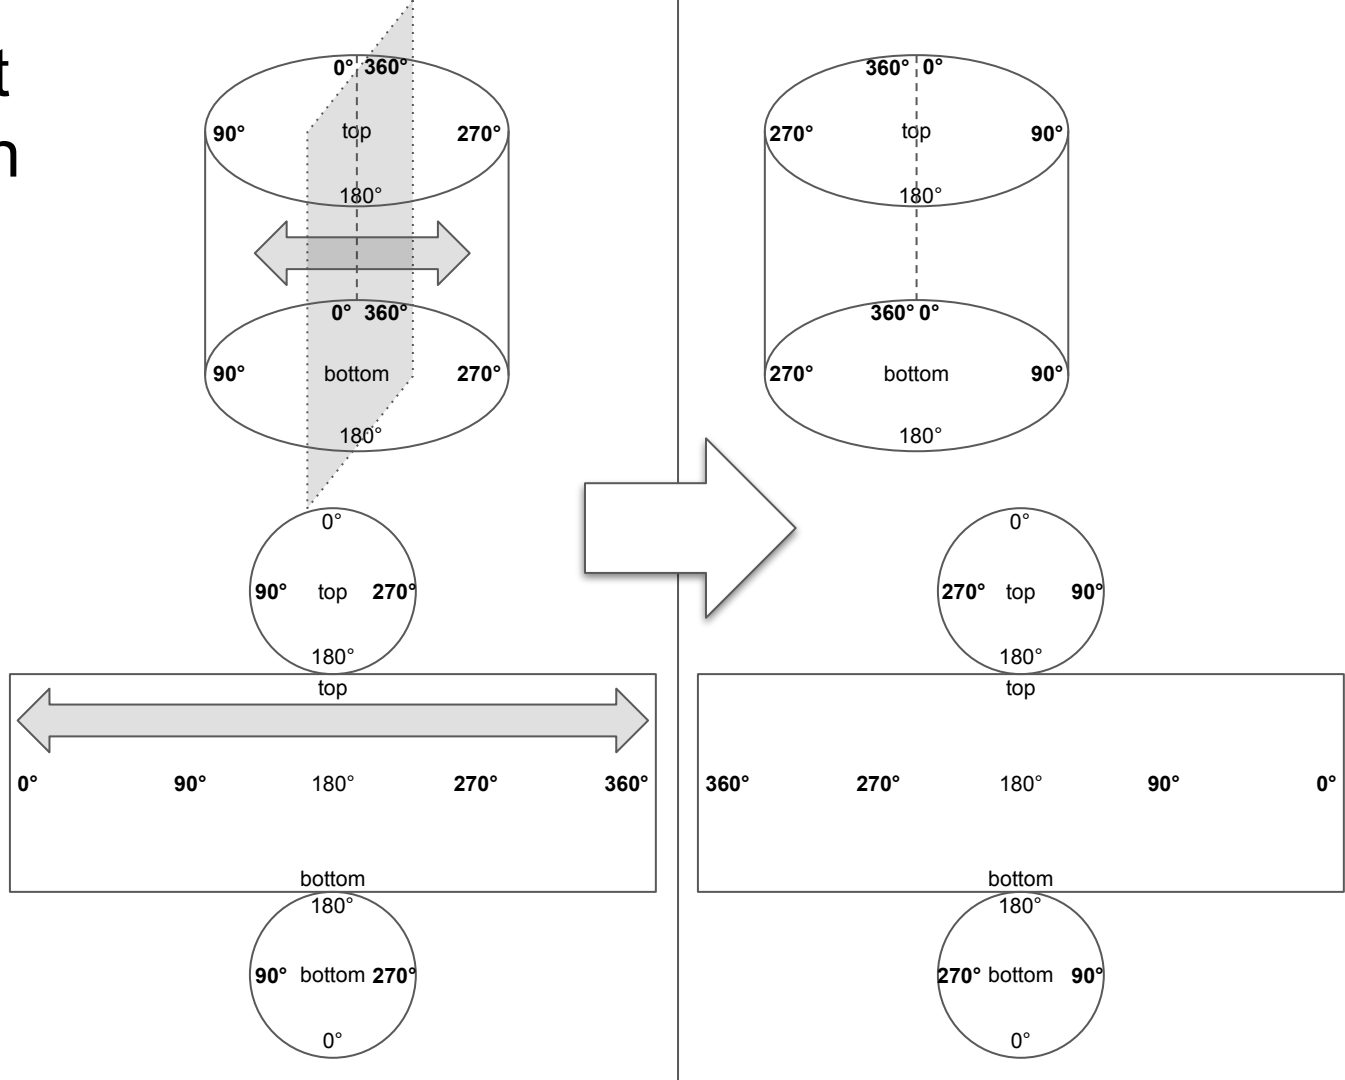

Vertical flip of
whole image

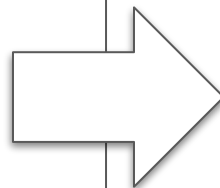

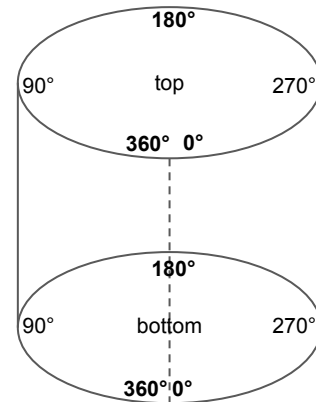

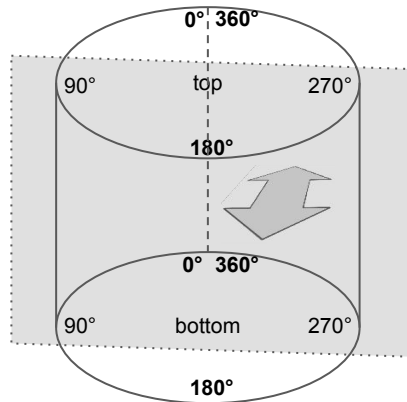

Left/right reflection

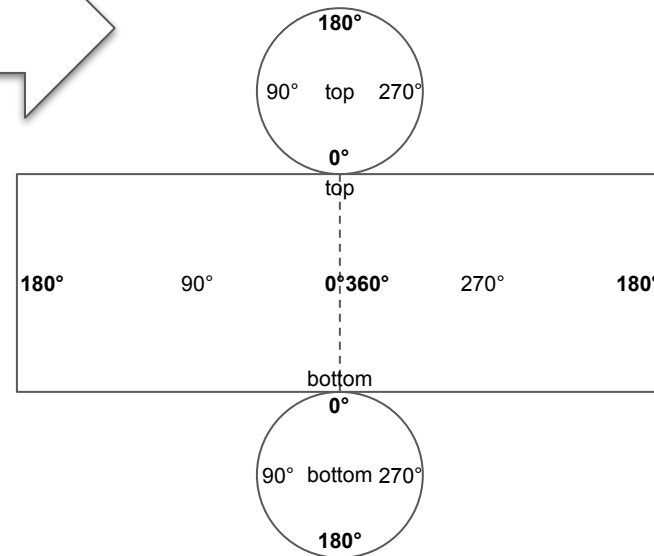

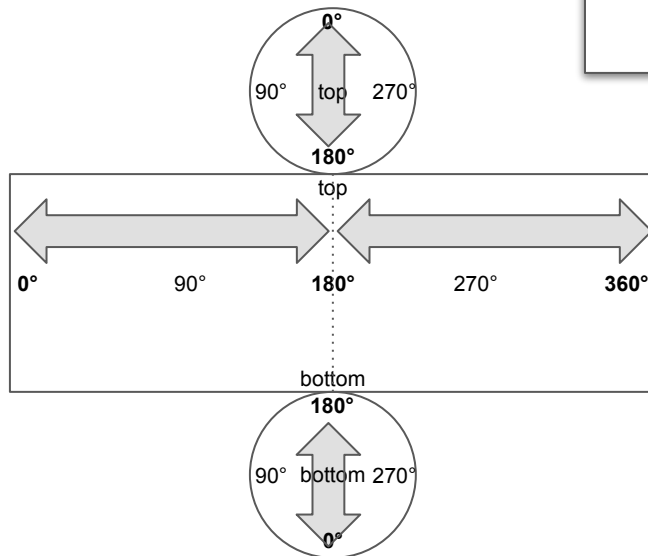

Horizontal flip of whole image

Front/back reflection

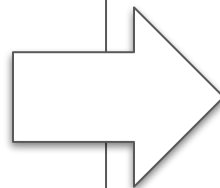

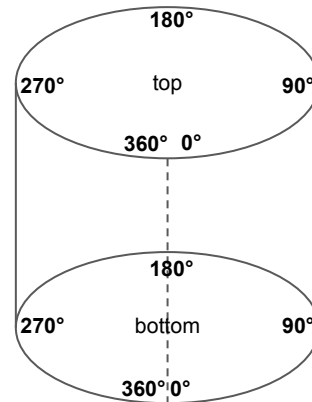

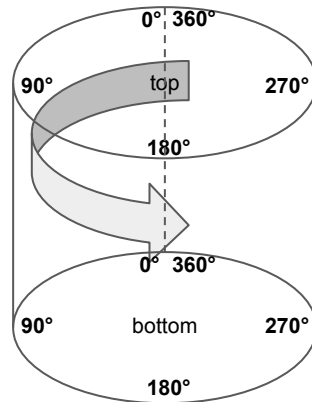

Vertical flip of
end-caps,
horizontal flips
of left half and
right half of
barrel

180° rotation about axis

Equivalent to doing both
a left-right reflection and
a front-back reflection

Vertical and
horizontal flips
of end-caps,
swap left half
and right half of
barrel (or 'roll'
barrel half its
length)
